SKILLS

NextJS, React Native, Typescript, ExpressJS, PostgreSQL

WORK EXPERIENCE

Software Engineer, Kloudius Services Sdn. Bhd.

2024/08 – present

- Shipped internal tooling features using **React** (web) and **Express.js** with **TypeScript** (backend).
- Contributed to **React Native** development across web, mobile, and TV platforms, including SDKs for DirecTV.
- Onboarded new engineers to support **large-scale, multi-platform delivery**.

Junior Frontend Engineer, The Walnut.AI

2023/02 – 2024/08

- **React** UI for banking; **~90% unit test** coverage.
- Built **VegaSpread 4.0** in **React** — design to prod; **high-volume** data.
- **Playwright** automation for **E2E** and regression coverage.

PROJECTS

DevDAJ, Personal Portfolio

- Improving **SEO** with **Astro**.
- Created a mobile friendly **responsive UI** using **TailwindCSS**.
- **Custom Dashboard** for blog posts that uploads a markdown file to **S3**.

Owlect, Project based learning platform, 3rd Place, Codenection Hackaton

- Built **User-friendly Front-end** using **Vue.js**
- Implemented **GraphQL** to ensure safe and secure data fetching.
- Added support for a **Headless CMS** for content management.

AWARDS

Third Place, Codenection Hackathon 2022, Multimedia University Malaysia

- Created **Owlect**, a hackathon project to aid in United Nation's Sustainable Development Goal.
- Collaborative development by using **Git** as a **source control tool**
- Used **Jira** to separate responsibilities among team members thus increasing productivity

CERTIFICATES

CS50x — *Havard University* | **Oddesey Hackfest Hackathon** — *Universiti Malaya* |

Codenection 2022 — *Multimedia University Malaysia*
